Lakeport Unified School District

Lakeport Unified School District is located in Lakeport, CA. Visitors at all sites are asked to sign in with the front office upon arrival to any campus. There are multiple parking lots shared between our staff and students. All schools share a School Resource Officer and an established drill schedule is used to test students' and staff members' abilities to respond to any emergency.

- A particular threat assessment team may serve one or more schools as determined by the Superintendent.
- Each team shall include persons with expertise in counseling, instruction, school administration, human resources, and law enforcement.
- Each team shall:
 - Provide guidance to students, faculty, and staff regarding recognition of threatening or aberrant behavior that may represent a threat to the community, school, or self;

- Identify members of the school community to whom threatening behavior should be reported; and
- Implement school board policies for the assessment of and intervention with individuals whose behavior poses a threat to the safety of school staff or students.

LAKEPORT UNIFIED SCHOOL DISTRICT
PROCEDURES FOR SCHOOL THREAT ASSESSMENT PROGRAMS

PURPOSE

The purpose of this document is to establish procedures for the assessment and intervention with individuals whose behavior poses a threat to the safety of school staff or students.

DEFINITIONS

- A **threat** is a concerning communication or behavior that indicates that an individual poses a danger to the safety of school staff or students through acts of violence or other behavior that would cause harm to self or others. The threat may be expressed/communicated behaviorally, orally, visually, in writing, electronically, or through any other means; and is considered a threat regardless of whether it is observed by or communicated directly to the target of the threat or observed by or communicated to a third party; and regardless of whether the target of the threat is aware of the threat.
- A **threat assessment** is a fact-based process emphasizing an appraisal of observed (or reasonably observable) behaviors to identify potentially dangerous or violent situations, to assess them, and to manage/address them.
- **Aberrant behavior** is that which is atypical for the person or situation and causes concern for the safety or well-being of those involved. Aberrant behavior for an individual involves actions, statements, communications or responses that are unusual for the person or situation; or actions which could lead to violence toward self or others; or are reasonably perceived as threatening or causing concern for the well-being of the person. These can include (but are not limited to):
 - Unusual social distancing or isolation of subjects from peers and family members;
 - Sullen or depressed behavior from an otherwise friendly and positive person;
 - Out of context outbursts of verbal or physical aggression;
 - Increased levels of agitation, frustration and anger;
 - Confrontational, accusatory or blaming behavior;
 - An unusual interest in or fascination with weapons; and/or
 - Fixation on violence as a means of addressing a grievance.
- A **low-risk** threat is one in which the individual/situation does not appear to pose a threat of violence or serious harm to self/others, and any exhibited issues/concerns can be resolved easily.
- A **moderate-risk** threat is one in which the person/situation does not appear to pose a threat of violence, or serious harm to self/others, at this time; but exhibits behaviors that indicate a continuing intent and potential for future violence or serious harm to self/others; and/or exhibits other concerning behavior that requires intervention.
- A **high-risk** threat is one in which the person/situation appears to pose a threat of violence, exhibiting behaviors that indicate both a continuing intent to harm and efforts to acquire the capacity to carry out the plan; and may also exhibit other concerning behavior that requires intervention.

- An **imminent threat** exists when the person/situation appears to pose a clear and immediate threat of serious violence toward others that requires containment and action to protect identified or identifiable target(s); and may also exhibit other concerning behavior that require intervention.
- A **direct threat** is one in which the person poses a significant risk to the health or safety of others that cannot be eliminated by a modification of policies, practices, or procedures, or by the provision of auxiliary aids or services. The direct threat standard applies when the threat assessment team or school administration determines that a subject poses a direct threat, and the administration also determines that applicable disciplinary procedures are not available or sufficient to mitigate the threat. If the administration makes such a determination, the school division is not required to permit the student to participate in or benefit from the services, programs, or activities of the division. A determination that a person with a disability poses a direct threat may not be based on generalizations or stereotypes about the effects of a particular disability and must be based on an individualized assessment, based on reasonable judgment relying on current medical evidence or on the best available objective evidence, to determine: the nature, duration, and severity of the risk; the probability that the potential injury will actually occur; and whether reasonable modifications of policies, practices, or procedures will mitigate the risk.

THREAT ASSESSMENT TEAM

- The threat assessment team should include persons with expertise in counseling (e.g., a guidance counselor, a school psychologist and/or school social worker), instruction (e.g., a teacher or administrator with instructional experience), school administration (e.g., a principal or other senior administrator from the school(s) covered by the team and human resource professionals); and law enforcement (typically a School Resource Officer). Other school staff (or community resources) may serve as regular members on the team, or be consulted during the threat assessment process, as appropriate, and as determined by the team.
- School threat assessment teams should have a designated team leader, typically a principal or other senior administrator for the school(s)
- Team members shall work collaboratively with each other, with other school staff, and (as appropriate) with community resources to support the purposes of the team and the safety of the school and its students and staff.
- The threat assessment team leader may designate a subset of team members to triage cases reported to the team. This triage process serves to screen cases and determine their appropriateness for review and/or action by the full team. If the team elects to implement a triage process, at least two members of the team will review initial reports of concern to determine if existing resources and mechanisms are sufficient to address those concerns, or whether the full team should further assess and manage the situation. All members of the team should have an opportunity to review triaged cases to ensure they have been adequately addressed.
- Unless it is not feasible to do so, all team members should be involved with the assessment and intervention of individuals whose behavior poses a threat to the safety of school staff or students.
- Team members shall actively, lawfully, and ethically communicate with each other; with school administrators; and with other school staff who have a need to know particular information to support the safety and well-being of the school, its students and its staff.
- In fulfilling statutory responsibilities, school threat assessment teams shall:

- Provide guidance to students, faculty, and staff regarding recognition of threatening behavior that may represent a threat by conducting presentations, broadly disseminating relevant information, and ensuring access to consultation from threat assessment teams;
- Clearly identify members of the school community to whom threatening behavior should be reported;
 - Implement school board policies in an effective manner for the assessment of and intervention with individuals whose behavior poses (or may pose) a threat to the safety of school staff or students, including (where appropriate) referrals to community service boards or health care providers for evaluation or treatment.

PROCEDURES

• Identifying and Reporting Threats

- When an individual makes a threat or engages in concerning communications or behaviors that suggest the likelihood of a threatening situation, the [School Division] Threat Assessment Guidelines shall be followed. The goal of the threat assessment process is to take appropriate preventive or corrective measures to maintain a safe and secure school environment, to protect and support potential victims, and to provide assistance, as needed, to the individual being assessed.
- Regardless of threat assessment activities, disciplinary action and referral to law enforcement are to occur when required by school board policy or the Code of California.
- Threats of self-harm by students. For any individual, when threats of self-harm are accompanied by threats to harm others, or investigation suggests the existence of a threat to others, the threat assessment team shall be notified and take appropriate action to prevent acts of violence. The threat assessment team shall work collaboratively with other entities involved in the case.
- All school division employees, volunteers, and contractors are required to report immediately to the designated school administrator any expression of intent to harm another person, concerning communications, or concerning behaviors that suggest an individual may intend to commit an act of violence.
- Anyone who believes that a person or situation poses a clear and immediate threat of serious violence that requires containment shall notify school security and/or law enforcement in accordance with school board policies on Critical Incident Response.
- In accordance with the Education Code and California state law, certain types of threats require immediate notification to law enforcement. The principal shall immediately report to the local law enforcement agency:
 - Assault and battery that results in bodily injury, sexual assault, death, shooting, stabbing, cutting, or wounding of any person, or stalking of any person, on a school bus, on school property, or at a school-sponsored activity;
 - Threats against school personnel while on a school bus, on school property or at a school-sponsored activity;
 - Illegal carrying of a firearm onto school property;
 - Illegal conduct involving firebombs, explosive materials or devices, or hoax explosive devices, or explosive or incendiary devices, or chemical bombs, on a school bus, on school property, or at a school-sponsored activity;
 - Threats or false threats to bomb made against school personnel or involving school property or school buses;

- The school administrator shall also immediately report any act noted above that may constitute a criminal offense to the parents and/or guardians of any minor student who is alleged to have committed the act and shall report that the incident has been reported to local law enforcement, as required by law. The school administrator shall inform the parents and/or guardians that they may contact local law enforcement for further information, if they so desire. In addition, the school administrator may report other threats to the local law enforcement agency as necessary and appropriate.

- Assessing Threats

- When a threat is reported, the school administrator and/or threat assessment team leader shall initiate an initial inquiry/triage and, in consultation with the threat assessment team, make a determination of the seriousness of the threat as expeditiously as possible.

Upon notification of threatening behavior or communications, the school administrator or threat assessment team leader shall determine if an imminent threat is believed to exist. If the individual appears to pose a clear and immediate threat of serious violence, the administrator shall notify law enforcement in accordance with School Board policies. [Note: In accordance with “Model Crisis, Emergency Operations and Medical Response Plan,” school responses may include actions such as evacuation, lockdown, and shelter in place.]

- If there is no reasonably apparent imminent threat present, or once such an imminent threat is contained, the threat assessment team leader shall ensure that the situation is screened/triaged to determine if the full threat assessment team needs to be involved. This triage may include (as necessary and appropriate):

- Review of the threatening behavior or communication.

- Review of school and other records for any prior history or interventions with the individual(s) involved.

- Conducting timely and thorough interviews (as necessary) of the person(s) who reported the threat, the recipient(s) or target(s) of the threat, other witnesses who have knowledge of the threat, and where reasonable, the individual(s) who allegedly engaged in threatening behavior or communication. The purpose of the interviews is to evaluate the individual’s threat in context, so that the meaning of the threat and intent of the individual can be determined.

- If it is determined that the threat is no identifiable or a low threat of violence or harm to self or others, and the threat assessment team determines that no further assessment, intervention, or monitoring is required at this time to prevent violence:

- The threat assessment team leader shall ensure that the incident and review is adequately documented via [cite School Division documentation source here]. The threat assessment team shall maintain the documentation in accordance with School Board policy. [NOTE: A sample Threat Assessment and Response Form is provided as part of this guidance document. The form will be available at the Lake County Office of Education website and may be adapted to meet the needs of the school].

- If the individual (about whom the report was made) does not pose a threat but could benefit from or is in need of some other need of assistance, the threat assessment team leader shall ensure that the individual is referred to the appropriate school or community-based resources.

- If it cannot be determined with a reasonable degree of confidence that the alleged threat is no/low threat, then a more in-depth assessment is to be undertaken by the threat assessment team to determine the nature and degree of any safety concerns and to develop strategies to prevent violence and reduce risk, as necessary. The assessment may include but not be limited to reviews

of records; interview and consultation with staff, students or community who know the individual; and interviews of the individual and the target/recipient of the threat(s).

- Based on information collected, the school threat assessment team shall determine strategies to mitigate the threat and provide intervention and assistance to those involved, as needed.

- Upon a determination that a student poses a threat of violence or physical harm to self or others, a threat assessment team shall immediately report its determination to the Superintendent or designee. The Superintendent or designee shall immediately attempt to notify the student's parent or legal guardian.

- In instances where the threat is deemed moderate risk or high risk, or requires further intervention to prevent violence or serious harm, the school administrator **shall** notify the parent and/or guardian of any student who is the target/recipient of a threat as well as the parent and/or guardian of any student who made the threat.

- In cases involving no/low risk threats, the school administrator **may** notify the parent and/or guardian of any student who is the target/recipient of a threat and/or may notify the parent and/or guardian of any student who made the threat.

- Intervening, Monitoring, and Resolving Threats

- If it is determined that an individual poses a threat of violence, the threat assessment team shall develop, implement, and monitor an individualized plan to intervene with, address and reduce the threat. The threat assessment team shall maintain documentation in accordance with School Board policy.

- The threat assessment team shall assist individual(s) within the school who engaged in threatening behavior or communication, and any impacted staff or students, in accessing appropriate school and community-based resources for support and/or further intervention.

- For each case, a member of the threat assessment team shall be designated as a case manager to monitor the status of the individual(s) of concern (in that case) and to notify the threat assessment team of any change in status, response to intervention/referrals, or additional information that would be cause for a re-assessment and changes in intervention strategies. Updates regarding the case are to be documented in accordance with School Board policy. These updates are to be submitted regularly (e.g., at least every 30 days) until the case is resolved and is no longer assessed to pose a threat to the school or its staff or students.

- Resolution and closure of the case is to be documented in accordance with School Board policy. [NOTE: A sample Threat Assessment and Response Form is provided as part of this guidance document. The form is available at the Lake County Office of Education's website and may be adapted to meet the needs of the school].

Lakeport Unified School District works closely with the Lakeport Police Department over the course of the year. The district shares employment with Lakeport Police Department to provide a full-time School Resource Officer during regular school hours and after school hours for certain occasions, such as largely attended activities and dances. Three members of the police department regularly attend district safety committee meetings throughout the school year. Lakeport Unified has previously allowed the Lakeport Police Department, along with the FBI, access to the high school campus for the purposes of holding an "active shooter training" for all Lake County law enforcement agencies.

3. Strategies and Programs

3.1 Child Abuse Reporting Procedures - Board Policy 5141.4

All LUSD staff will complete online Keenan Training by September 30, 2022.

Child abuse and neglect must be reported to a child protective agency immediately as required by the California Penal Code, Chapter 916, and Sections 11164-11174.3. Agencies authorized to accept mandated reports are police, sheriff, and Child Protective Services (CPS). Mandated reporters include healthcare practitioners, childcare providers, custodians, school employees and employees of a child protective agency. This includes EMTs and paramedics.

Neglect is defined as the negligent failure of a parent or caretaker to provide adequate food, clothing, shelter, medical/dental care, or supervision. Physical abuse is defined as a physical injury, including death, to a child which appears to have been inflicted by other than accidental means.

Sexual abuse is defined as sexual assault on, or the exploitation of a minor. Sexual assaults include rape, rape in concert (aiding or abetting or acting in concert with any person in the commission of a rape), incest, sodomy, oral copulation, penetration of genital or anal opening by a foreign object, and child molestation. It also includes lewd or lascivious conduct with a child under the age of fourteen years, which may apply to any lewd touching if done with the intention of arousing or gratifying the sexual desire of either the person involved or the child. Sexual exploitation includes conduct or activities related to pornography depicting minors, and promoting prostitution by minors. A child is defined as any person under the age of eighteen.

The purpose of reporting suspected child abuse/neglect is to protect the child, prevent further abuse of the child and other children in the home, and begin treatment of the entire family. The inflection of injury, rather than the degree of that injury, is the determination for intervention by the CPS and law enforcement.

When a mandated reporter has knowledge of or has observed child abuse or neglect, that individual is required to report to the local law enforcement and/or to the CPS immediately or as soon as practically possible by telephone and shall complete the suspected child abuse report form within 36 hours. Those persons legally required to report suspected child abuse have immunity from criminal or civil liability for reporting as required. Reporting forms are available online, in the main office or from any administrator.

You may contact the local police or sheriff's department, or child protective services. The phone numbers are:

3.2 Disaster Procedures, Routine and Emergency, Including Students with Disabilities

In order to save lives and protect property, all District staff and students must be prepared to respond quickly and responsibly to emergencies, disasters and events, which threaten to result in a disaster. Appropriate drills and trainings will occur throughout the school year.

The Superintendent/Principal or designee has developed and maintained a multi-hazard emergency preparedness plan, which details provisions for handling all foreseeable emergencies and disasters. The plan includes working plans and procedures specific to the school and its students, and is reviewed/updated annually. This plan also contains available district and outside agency resources, emergency disaster procedures and information on Standardized Emergency Management System (SEMS). The manual is located in the school/district office. A contingency plan for emergencies is contained on a clipboard available to each staff member.

Pupils with disabilities: IDEA requires that planning for the educational success of these students is done on an individual, case-by case basis through the development of an Individual Education Program (IEP). The IEP is a written statement developed for each child with a disability that outlines measurable annual goals for each child's academic achievement and functional performance and specifies accommodations and modifications to be provided for the student.

Students with special needs who are self-sufficient under normal circumstances may have to rely on others in an emergency. They may require additional assistance during and after an incident in functional areas, including, but not limited to: communication, transportation, supervision, medical care, and reestablishing independence. While not explicitly stated, a component of the IEP for related services must consider the particular needs of the child to ensure his or her safety during an emergency that includes evacuation from a classroom and building.

3.2.1 Fire Drill/Evacuations

No fire alarm will be ignored. Fire alarms have been used to force an evacuation with the intent of harming the evacuees. While no fire alarm will ever be ignored, when no evidence of a fire is present, implement Secondary Attach Countermeasures. If you know the alarm to be false, you may cancel the evacuation order, however, 9-1-1 MUST be notified.

Fire/Fire Alarm:

- Call 9-1-1 and School Resource Officer.
- Notify the Incident Management Team and place them on stand-by.
- Team members should forward information immediately regarding unusable/unsafe exits.

- Select the rally point and request police presence there.
- Announce the need to evacuate, if necessary, and list areas to avoid.
- Establish Exterior Command Post.
- Ensure Liaison Officer is available to assist emergency response personnel as necessary.
 - Provide keys to the facility
 - Provide floor plans
 - Provide utility shutoff information
 - Student roster
- Notify the Public Information Office.
- Arrange for transportation to shelter areas if necessary.
- Prevent people and students from gathering near parked cars and emergency vehicles.
- Make arrangements for family reunification.
- Announce “all clear” when directed by emergency response personnel.

Fire Extinguisher Instructions:

P – Pull safety pin from the handle;

A – Aim at the base of the fire;

S – Squeeze the trigger handle;

S – Sweep from side to side.

If your clothes (or someone else’s) catch fire: **STOP, DROP AND ROLL!**

- Principal will be accountable for teachers and school district staff. Teachers will be accountable for students.
- Notify the Superintendent of the incident.

The principal/program administrator shall hold fire drills at least once a month at the elementary level, four times every school/program site year at the intermediate level, and not less than twice every school/program site year at the secondary level. (Education Code 32001)

3.2.2 Lock Down/Active Shooter/Attack

When deemed necessary by school administrators or law enforcement officials, the school will be placed in a “lockdown” status. An announcement will be made via our phone intercom system, “Attention students and staff, please go to immediate lockdown status.” While in lockdown, classroom doors are to remain closed and locked and window coverings are to be closed. Take cover inside the room by laying flat on the floor, hiding behind desks or any furniture, and staying away from all windows. Students in the room are to remain inside. All staff are to assist students outside enter a secure, indoors area. Teachers must take roll when a lockdown is called and any student not assigned to that class must be added to the roll list. All bells and “Fire Alarms” will be ignored including the end of the day bell. Do not open the door for any reason or for any person. Everyone is to remain in lockdown status until the site administrator or law enforcement official announces an all clear. Once the immediate danger has passed, and at the direction of law enforcement, the site will be evacuated or regular school activities will resume.

3.2.3 Active Shooter

Lakeport Unified School District will cooperate with law enforcement in any crisis. The following guidance is provided by law enforcement in the event of an active shooter on school grounds:

All such harassment is unlawful. Irrespective of law, the District believes that all such harassment is offensive. The District's anti-harassment policy applies to all persons involved in the District's educational environment and prohibits unlawful harassment by any District student or any employee of the District, including verbal, physical and visual conduct, threats, demands and retaliation, is prohibited. Violation of this policy by a student may result in discipline, which may include suspension or expulsion, depending on the nature or seriousness of the violation. California Ed Code 48900(r) states “Engaged in an act of bullying, including, but not limited to, bullying committed by means of an electronic act, as defined in subdivisions (f) and (g) of Section 32261, directed specifically toward a pupil or school personnel.” Violation of Ed Code 48900(r) is a Suspendable offense.

In these current times, the prevalence of social media (Facebook, Twitter, You-Tube, etc.) websites and the access available for student use brings with it the possibility of bullying via posts or texts that are harmful, hurtful, or threatening. This can include inappropriate, violent, gang-related, harmful, hurtful, and/or threatening videos, photographs, posts, texts, or other forms of electronic media. When this happens, the impact is negative for both students, families, and the school. When cyber-bullying comes to the attention of the school, the school will take action as per educational code. THIS RULE APPLIES TO OFF-CAMPUS COMPUTER AND CELL PHONE USE THAT INTERFERES, INTERRUPTS, OR HARMS STUDENT(S) AND/OR STUDENT LEARNING.

Informal Process: Complaints must be investigated by school personnel. Informal remedies include an opportunity for the complainant(s) to explain to the alleged perpetrator that the conduct is unwelcome or disruptive either in writing or face to face; a statement from a staff member to the alleged perpetrator that the alleged conduct is not appropriate and could lead to discipline if proven or repeated; or a general public statement from an administrator while reviewing the harassment, intimidation and bullying policy without identifying the complainant, parent or guardian.

Formal Complaint Process: Anyone may initiate a formal complaint process of harassment, intimidation or bullying, even if the informal complaint process is being utilized. Complainant(s) should not be promised confidentiality at the onset of an investigation. It cannot be predicted what will be discovered or what kind of hearing may result. Efforts should be made to increase the confidence and trust of the person making the complaint.

1. All formal complaints will be documented.
2. Formal complaints shall set forth specific acts, conditions or circumstances alleged to have occurred that may constitute harassment, intimidation or bullying.

The Board expects students to give proper attention to personal cleanliness and to wear clothes that are suitable for the school activities in which they participate. Students' clothing must not present a health or safety hazard or a distraction which would interfere with the educational process.

Students and parents/guardians shall be informed about dress and grooming standards at the beginning of the school year and whenever these standards are revised. A student who violates these standards shall be subject to appropriate disciplinary action.

Gang-Related Apparel

The principal, staff and parents/guardians at a school may establish a reasonable dress code that prohibits students from wearing gang-related apparel when there is evidence of a gang presence that disrupts or threatens to disrupt the school's activities. Such a dress code may be included as part of the School Safety Plan and must be presented to the Board for approval. The Board shall approve the plan upon determining that it is necessary to protect the health and safety of the school's students. In order to maintain a positive educational environment, the following student guidelines are established:

Lakeport Unified School District Dress Code Policy

Good taste, health and safety are factors that determine our dress code policy which promotes a safe and positive learning environment. Any clothing that is disruptive to the education process along with items addressed below will not be allowed. The dress code will be enforced during the school day and at all official school functions, even if the event is held outside of normal school hours. In the event dress code violations occur, parents/guardians will be notified and asked to bring appropriate clothing to school. Repeated offenses will follow progressive discipline. 8. Procedures for Safe Ingress and Egress BP 5142

The Governing Board believes that it is important for parents/guardians and community members to take an active interest in the issues affecting district schools and students. Therefore, the Board encourages interested parents/guardians and community members to visit the schools and participate in the educational program.

To ensure the safety of students and staff and minimize interruption of the instructional program, the Superintendent or designee shall establish procedures which facilitate visits during regular school days. Visits during school hours should be arranged with the principal or designee. When a visit involves a conference with a teacher or the principal, an appointment should be scheduled during non-instructional time. (cf. [6116](#) - Classroom Interruptions) Any person who is not a student or staff member shall register immediately upon entering any school building or grounds when school is in session.

The principal or designee may provide a visible means of identification for all individuals who are not students or staff members while on school premises. No electronic listening or recording device may be used by any person in a classroom without the teacher's and principal's permission. (Education Code [51512](#))

9. Safe and Orderly School: BP 5137

In order to create and maintain a safe and orderly environment, Lakeport Unified School District annually publishes and shares with parents/guardians our behavioral expectations and the consequences for violating them. Teachers review rules, safety, and school environment expectations each year with their students via the Student Handbook from their respective school.

Positive pupil interpersonal relations are fostered by teaching social-personal skills, encouraging pupils to feel comfortable assisting others to get help when needed and teaching pupils alternative, socially appropriate replacement responses to violence, including, but not limited to problem solving and anger control skills. When appropriate, staff members shall make referrals to recognized community agencies and/or counseling and mental health resources in the community to assist parents/students with issues of prevention and intervention.
